FOREWORD

As per clause 73(f) of Electricity Act 2003, Central Electricity Authority is to "promote and assist in the timely completion of schemes and projects". The Thermal Project Monitoring (TPM) Division of CEA is entrusted with the responsibility of monitoring the progress of construction/erection activities of all the thermal power projects in the country till the units are commissioned. Visits are also made by CEA officers to the sites for assessing the on the spot progress of works and rendering the advice/assistance in solving the problems being faced by the project authorities, thereby helping the project authorities in avoiding / minimizing the time and cost overruns of the thermal power projects.

In this context, Thermal Project Monitoring Division, Central Electricity Authority has been bringing out monthly report titled "Broad Status of Thermal Power Projects in the Country". This report gives year-wise details of thermal power projects commissioned during 12th plan and onwards. Further, the Report includes up-to-date information on thermal power projects under construction in the country wherein the details regarding name of the Project, capacity, location, implementing agency, commissioning schedule, type of fuel, estimated cost, the milestones achieved as on date etc. are available. The critical issues requiring immediate attention of concerned authorities in the implementation of these thermal power projects have also been highlighted. Construction activities in most of the under construction thermal power projects are moving at a slow pace due to the impact of COVID-19 pandemic.

The Broad Status Report is being brought out regularly by TPM Division on the basis of the data forwarded by various project authorities, visits made by CEA officers to various power projects, discussions held with the executing agencies and suppliers of equipment from time to time. However, due to travel restrcitions imposed due to COVID-19 pandemic, review meeting are being held with project authorities through video conferencing to access the project construction status.

CEA welcomes feedback for further improvement in the Broad Status Report.

Chief Engineer (TPM)

This report is based on the details received from various project authorities & other organizations / agencies associated with the projects and is for information and non-commercial use only. REASONS OF DELAY :

Inordinate delay by Main Plant (SG & Auxiliaries Package) vendor M/s TPE. Work started after 6 Years of award. Contract of M/s TPE was terminated in Jan'15 due to consistent failure of commitments and poor performance. Contract for balance works re-awarded after 1 year.During Hydro Test of Boiler U#1, DI-59 Coils in PSH-IV, CSH & LPRH-II failed which were supplied by M/s TPE. Accordingly, change of material to SS304H was approved and contract was awarded to M/s GE on 15.01.18 for supply, Dismantling & Installation of Coils. Delayed project byapp. 2 years.

- Due to unusual delay in project commissioning for Main plant vendors, revival of Balance Offsite Packages is taking considerable time.
- Due to US sanction on Power Machines, Russia, balance TG/SG supplies and works got delayed.
- Delay due to land acquisition / physical possession in past.
- Law & Order issues in past.
- Abnormal Heavy Rain Fall in Year 2007, 2008, 2011, 2014 & 2016 in Monsoon period.
- Shortage of aggregate in Year 2010 as Govt. of Bihar banned stone quarry mines to protect the environment under Bihar minor mineral concession (Amendment) rules, 2010.
- Bihar Govt. Vide order dated 09.02.2016 ban all the sand mining from the riverbed without environmental clearance led to shortage of sand for some period.
- Delay due to ongoing COVID-19 pandemic since Mar'20.
- Delay in Procurement of balance TKZ material for SG & Aux for U#2 & 3
- Abnormal Temperature Rise in U#1 Water wall tubes

REASONS OF DELAY :

- Readiness of Boiler#3 is getting delayed due to delay in receipt of balance material and further is dependent on supply of Insulation materials from BHEL.
- Items against open orders by BHEL from Trichy / Ranipet / Bhopal etc. (Ordered: 1306 DUs & 92 MDR, dispatch being expedited)
- Delay in balance civil work for SG U#2 & 3 and Offsite works as agency (M/s ERA) is under financial stress and is in NCLT. It is affecting work progress. Part works offloaded and being carried out by other agencies.
- Delay in readiness of Ash handling System as agency (M/s DCIPS) is under financial stress and is in NCLT and under liquidation process. It is adversely affecting supply and work progress. Ordering of balance materials of U#3 Ash handling system being expedited.

REASONS OF DELAY :

? Main plant layout was changed to avoid GM land which Govt. was not in position to handover due to encroachments.

? Delay in Award of Critical Packages by BHEL. Air Cooled Condenser (ACC) Mechanical Package awarded in Mar'17 with a delay of 31months; ACC civil package was awarded in May'17 with a delay of 27 months.

? Delay due to slow work progress by EPC agency (M/s BHEL). Slow progress of Air Cooled Condenser works by M/s BHEL may affect the current commissioning target of project.

? Delay in acquisition of land. Approx. 131 acres of land is still balance for physical possession for Reservoir and Ash Dyke. It may further delay the commissioning of the project (another 101 Acre land is under litigation in Hon'ble HC, Ranchi).

? Additionally, 61 acres of Land is required for external CHP, under acquisition thru' CCL.

? Agitation by villagers for demand of additional compensation against already acquired land (about 2200 Acres). Project Work was completely stopped by the agitators, for about 40 days during Feb-March'2021.

REASONS OF DELAY :

- Delay in acquisition of land for Railway Siding/MGR and ROU for MUW line. Last patch of 14.25 acres land received in Mar'21.

Transmission line of Make up water pump house could not be completed due to ROW issues. 122/335 foundations could only be completed as villagers are not accepting compensation decided by Distt. Administration.

- Slow progress in civil works CW & MUW System (Sunil Hitech). Agency under NCLT.
- Delay in readiness of AHP System (M/s Indure).
- Slow progress in SG package by M/s BHEL.
- Delay due to ongoing COVID-19 pandemic since Mar'20. Non-availability of Industrial oxygen during second wave.

REASONS OF DELAY :

- Delay in Boiler design due to new De-Nox & De-Sox norms (New Env. norms came after opening of Price Bid and were incorporated in the contract). Accordingly, there was delay in Completion of Basic Engg. and Supply of Boiler / TG structures.
- Slow progress by BHEL sub-agency M/s B&R.
- Delay in Sand supply / Procurement at site (Due to restrictions by State Government of Telangana).
- Delay due to ongoing COVID-19 pandemic since Mar'20. Non-availability of Industrial oxygen during second wave.

REASONS OF DELAY :

1:Poor performance of few sub-agencies.

CRITICAL AREA/ ASSSISTANCE REQUIRED:

Delay in award of Air Cooler Condenser (ACC) Mech Pkg by BHEL. LOI had been issued to Beijing Shouhang (China) in Dec 2019 by BHEL, but LOA and contract signing had not taken place due to new set of terms & conditions proposed by ACC vendor and change in Geo political situation. ACC Package was retendered on 28.11.20. Bid opened on 30.03.21 and technical evaluation / scrutiny of bids is under progress by BHEL. ACC supply is already delayed by 32 months by BHEL and BHEL has to expedite the award of contract with compressed schedule. Re-award of Ash Handling Package: BHEL has terminated the Ash Handling Package earlier awarded to M/s L&T. Retendered bid was opened on 22.03.21. Price bid opened on 22.05.21 and is under negotiation. Package is already delayed by 29 months and BHEL has to expedite the re-award of Package. Award of Start-up power line and balance 02 STU lines by GoJ: Start up powerline i.e. Patratu- Patratu (Main Plant to Katia Substation) D/C Line (7.5 Kms)- Proposal Approved. NIT done on 09.04.2021 by JUSNL. Technical BOD planned on 04.06.21 is now extended to 15.06.21. Award is critical for Start-up Power availability and Power evacuation from units. Patratu STPP- Koderma (JUSNL) 400kV D/C line (160 km): Erection of these lines is to be done by JUSNL under state funding. Investment proposal is still to be cleared by empowered committee of Govt. of Jharkhand. Patratu STPP- Chandil (JUSNL) 400kV D/C line are (150 km): Erection of these lines are to be done by JUSNL under state funding. Investment proposal is still to be cleared by empowered committee of Govt. of Jharkhand.

POWER EVACUATION SYSTEM	Power Evacuation from 1st Unit of 3X660MW Plant is through " 765KV, Single Circuit, Ghatampur-Agra Transmission line" (GATL). GATL line is made ready by GTL and is presently anti-theft charged upto dead end tower near our plant boundary. 765KV, Single Circuit, Ghatampur Hapur Line is also 98% ready and is expected to be duly available during synchronization of 1st Unit. 1st circuit of 400KV Double Circuit, Ghatampur-Kanpur Transmission line is also completed by GTL and is available for power evacuation. However, at NUPPL end, 765KV switchyard readiness shall be prior to 400KV switchyard. So, power evacuation is likely to happen through 765KV Agra and Hapur Lines at starting.	EXP. REASONS OF DELAY :

1. Delay in ordering & engineering by M/s BHEL.
2. M/s BHEL delayed in submission of drawings to M/s TCE (consultant of RVUNL) for approval.
3. Many incompetent sub agencies deployed under the banner of M/s BHEL main contract due to which several types of labour disputes arose and work could not be commenced and completed in time.
4. Inadequate man power supply & non availability of Civil front.
5. Lack of co-ordination between different units of M/s BHEL, no senior officer of M/s BHEL posted at SSCTPP, Suratgarh site for proper co-ordination between different units of BHEL, which hampered the progress of project.
6. Due to world wide spread of COVID pandemic

REASONS OF DELAY :

1. Delay in material supply by EPC contractor due to GST implementation.
2. COVID-19 Phase-1.0: Total Project activities got hampered due to the restrictions imposed by Local administration, State and Central Government to prevent the adversities of COVID-19. The continuance of the epidemic further affected the site progress due to delay in restoration of activities.
3. COVID-19 phase 2.0: The second wave of epidemic and thereby suspension of site activities by EPC contractor. This resulted in complete halt of project progress from 01- May-2021.

REASONS OF DELAY :

1. Delay due to change in boiler design (boiler design changed to imported coal firing to indigenous coal firing) Due to the change in MOEF & CC pollution norms, the Boiler was redesigned which resulted in delay in completion of Boiler foundations and thus Boiler erection was delayed.
2. Due to Covid-19 pandemic all the works are held up at site from the third week of March 2020 due to announcement of Lockdown.
3. Due to Covid-19 pandemic 2nd wave all the works are held up at site from the third week of April 2021 due to unprecedented situations of Covid -19 2nd wave.

CRITICAL AREA: Boiler left side coal bunker house, mills, feeder floor, pipe racks 2 & 7 and ash handling system are required to be completed in full shape to achieve the COD of the UNIT.

REASONS OF DELAY :

1) Zero date is 27.09.2014, Works commenced at Site on 09.10.2014. Project works temporarily suspended from 07.09.2015 to 18.10. 2016 due to litigation. Original completion schedule is March 2018. Work resumed at Site from 19.10.2016. Completion schedule re-fixed to 06.05.2019 (without levy of LD & penalty) due to time lost of 407 day due to court case. Time extension granted from 06.05.2019 to upto 31.08.2020 for U#1 and 31.10.2020 for Unit 2 without prejudice to levy of LD & Penalty clauses. Once again time extension granted from 01.09.2020 to 31.05.2022 for Unit 1 & from 01.11.2020 to 14.08.2022 for Unit 2 without prejudice to levy of LD & Penalty clauses.

2) Entire project civil works were awarded to M/s.Simplex. Wherever slow progress of work noticed, BHEL has descoped the certain works from M/s.Simplex based on TANGEDCO's request, but still th e progress is very poor from M/s.Simplex.

3) Project activities are slow down since 24th March 2020 due to lock down enforced by GOI in view of COVID-19 outbreak. Permission accorded by Distt Collector (Thiruvalur) for resumption of work at site with only 600 manpower on 25.04.2020. Work resumed by BHEL from 18.05.2020. Project activities affected with limited man power due to complete lockdown from 10.05.2021 to 14.06.2021 & further extended upto 21.06.2021 announced by GoTN. Due to recent restrictions by Govt on use of Oxygen for Industrial purpose, structural work is being affected badly. BHEL to overcome this issue and increase the manpower at site to speed up the progress works.

CRITICAL AREA/ ASSSISTANCE REQUIRED:

1:Long term Coal Linkage application submitted on 26.02.2010 to Ministry of Coal/GoI/New Delhi for the supply domestic coal. Coal al location is yet to be received. However MoU has already been signed between MMTC & TANGEDCO on 25.06.2012 for the supply of 100% Import coal for this project. CEA vide their letter dt.19.02.2019 communicated that development of Chandrabila coal block is getting delayed and hence MoP may consider to recommend for accord of Bridge Linkage based on use of blended coal consisting of 50% imported coal and 50% Indigenous Coal for 1x660MW Ennore Expansion project,2x660MW Udangudi Thermal Power Project Stage I , and 2x660MW Ennore SEZ STPP project.During the standing linkage committee (SLC) meeting held on 24.6.2019 it has been decided that the discussion on the Bridge Linkage will be taken up in the next SLC meeting.- FSA is awaited from Ministry of Coal.

2:The progress in NDCT is affected from 06.12.19 onwards and M/s. Paharpur has issued Suspension Notice on 27.05.20 (initiated on 10.03.20) and the works are in standstill condition. Hence early steps shall be taken by M/s.BHEL to resume the activity.

REASONS OF DELAY :

1:The EPC contracts awarded to M/s. BHEL & M/S L&T has been suspended as per the NGT(SZ), Chennai Judgment dated 17.03.2021, delivered on Appeal No. 144 of 2016(SZ) filed in the designated court for a period of six months or until further orders.

NOTE: The EPC contracts awarded to M/s. BHEL & M/S L&T has been suspended as per the NGT(SZ), Chennai Judgment dated 17.03.2021, delivered on Appeal No. 144 of 2016(SZ) filed in the designated court for a period of six months or until further orders.

Considering the issues like NGT order, land litigation, local fishermen litigation and BOP package retendering works. TANGEDCO Board vide.BP.43,dated: 29.04.2021 has accorded approval to shift the existing 2x800 MW Uppur STPP to Udangudi site as 2x800MW Udangudi Stage-III and consider Uppur as a fresh project once all the legal issues in NGT and other places are settled and to approach GOTN for administrative approval.

Energy Secretary/GoTN has been addressed vide Lr dtd 10.05.2021 for approval of the above.
