(As per List)

**Subject :-Data regarding 11 KV Rural Feeder Monitoring Scheme (under DISCOMs).**

**Dear Sir,**

As you may be aware, that REC Transmission Projects Company Limited (RECTPCL) is implementing "11kV Rural Feeder Monitoring Scheme" on behalf of Ministry of Power (MoP), Government of India. The sole objective of the scheme is to monitor quality and quantity parameters of Rural Power supply across country. Under the scheme, modems on 11kV Rural Feeder are being installed and data of feeder meters is being acquired through these modems for further analysis in MDM in central server.

As of now, approximately 71,000 nos. modems have been installed under the scheme and out of these, 70-80%, communication is being achieved regularly. At present, various useful reports related to Outage, Reliability and Interruptions are being generated via the data acquired through the infrastructure augmented under above said scheme. It has been observed that some of the Discoms have revised the number of initial details of feeder after completion of work under the scheme.

In order to estimate the coverage of the scheme, it is very important to know the exact no. of 11kV Rural Feeder in each Discom and you will appreciate the fact that the scheme cannot be made successful without correct and complete input from the Discoms

Considering above, it is requested to furnish the data as on 31.03.2019 related to Rural Feeder in the attached format to estimate scheme coverage to take necessary decision in this regard by return email at : [cefacea@rediffmail.com](mailto:cefacea@rediffmail.com), [ce.pfam.cea@nic.in](mailto:ce.pfam.cea@nic.in), positively by 30/05/2019.

Thanking You,

Yours faithfully,

  
(Sunil Kr. Jain)  
Director, DM
