**Important Note:**

1. The above Generation Programme is prepared by CEA, based on the actual generation by the Stations during previous years, maintenance schedules furnished by the Stations for the year 2018-19 and anticipated new capacity additions during the year. However, there could be substantial variations in generation from individual Stations due to change in actual maintenance schedules of Stations (vis-à-vis proposed schedules), & sudden outages of units, actual commissioning of new capacities and change in overall generation mix due to constraints in availability of specific sources like hydro or gas etc.
2. Gross Generation Programme from conventional sources (Thermal, Hydro and Nuclear) stations of 25 MW and above only.

**Important Note:**

- The above Generation Programme is prepared by CEA, based on the actual generation by the Stations during previous years, maintenance schedules furnished by the Stations for the year 2018-19 and anticipated new capacity additions during the year. However, there could be substantial variations in generation from individual Stations due to change in actual maintenance schedules of Stations (vis-à-vis proposed schedules), & sudden outages of units, actual commissioning of new capacities and change in overall generation mix due to constraints in availability of specific sources like hydro or gas etc.
- Gross Generation Programme from conventional sources (Thermal, Hydro and Nuclear) stations of 25 MW and above only.

**Important Note:**

1. The above Generation Programme is prepared by CEA, based on the actual generation by the Stations during previous years, maintenance schedules furnished by the Stations for the year 2018-19 and anticipated new capacity additions during the year. However, there could be substantial variations in generation from individual Stations due to change in actual maintenance schedules of Stations (vis-à-vis proposed schedules), & sudden outages of units, actual commissioning of new capacities and change in overall generation mix due to constraints in availability of specific sources like hydro or gas etc.
2. Gross Generation Programme from conventional sources (Thermal, Hydro and Nuclear) stations of 25 MW and above only.
