Subject: Replacement of old & inefficient thermal units by supercritical units –Decommissioning & Retirement of Mahagenco's 2x210MW Units -1 & 2 of CSTPS Chandrapur- Reg.

Sir,

Reference is invited to your letter No. CE/Works/Chandrapur/7432, dated 09.06.2016 seeking decommissioning/retirement of Units 1 & 2 of Chandrapur TPS of 210MW each and removing this capacity from all India installed capacity (IC). The details furnished by MAHAGENCO have been examined by the Standing Committee on Deration, Upration and Retirement of Generating Units of Central Electricity Authority. It is seen that decision to retire these units has been taken by MAHAGENCO Board on 20.02.2016 as intimated by Secretary, MSPGCL vide letter No. MSPGCL/BM-155/Item No. 155.3, dated 18.03.2016. Meanwhile the units are under shut down from 1.9.2015 and 12.1.2016 respectively due to non-availability of consent to operate from MPCB.

As MAHAGENCO have already retired the units and advice of CEA in this regard have not been obtained before taking approval of its management, it is not desirable now to recommend retirement of these units by CEA.

The decision to retire Chandrapur, TPS Unit No.1 & 2 has been taken by MAHAGENCO based on their own techno-economic reasons and based on their decision, the units are being deleted from our records of Installed Capacity.

Yours faithfully

(P.D. Siwal)
Secretary, CEA
