ON
FLY ASH GENERATION
AT
COAL/LIGNITE BASED THERMAL POWER
STATIONS
AND
IT'S UTILIZATION IN THE COUNTRY
FOR
THE YEAR 2017-18**

CENTRAL ELECTRICITY AUTHORITY

NEW DELHI

DECEMBER 2018

FOREWORD

Presently, the Electricity generation, in the country comprises about 80% from coal based generating stations. In near future also the coal-based generation is likely to remain substantial. The Indian coal is of low grade having high ash content of the order of 30 - 45%, generating large quantity of fly ash at coal/lignite based Thermal Power Stations. At present, the Ash utilization is lower than the generation on all India basis. As a result, there is surplus ash stock, which has been increasing every year. The management of fly ash has thus been a matter of concern in view of requirement of large area of land for its disposal because of its potential of causing pollution of air and water.

To address the above concerns, Ministry of Environment & Forests and Climate Change (MoEF&CC) has issued various Notifications on fly ash utilization prescribing therein the targets for fly ash utilization for Coal/Lignite power based Thermal Power Stations with an aim to achieve 100% utilization in a phased manner. Central Electricity Authority has been monitoring since 1996 the status of fly ash generation and its utilization in the country.

The utilization of fly ash has increased from 7 million tons in 1996-97 to a level of 132 million-ton in 2017-18. The percentage of fly ash utilization during 2017-18 is 67% which is less than the target set by MoEF vide its notification dated 03.11.2009. MoEF&CC issued the amendment dated 25th January, 2016 to existing notification enjoining upon power utilities/Thermal Power Stations for 100% fly ash utilization by 31st December, 2017. It is, however, noted that to materialize 100% utilization of fly ash on all India basis, extra efforts by all TPS are needed.

I wish to express my sincere thanks to all the Power Utilities and Thermal Power stations in the country for providing data/information on fly ash generation and its utilization to CEA for bringing out this report.

(PRAKASH MHASKE)
Chairperson, CEA

New Delhi
December 2018

PREFACE

Management of Fly Ash at coal/lignite based Thermal Power Stations in the country is a challenging task in view of large quantity of ash being generated and target of achieving 100% utilization of fly ash in time bound manner as prescribed in MoEF Notification of 14th September, 1999 and its subsequent amendment. The land for creating ash dykes for ash disposal facilities at thermal power plants is becoming difficult to be acquired. Fly ash, if not managed well, may pose environmental challenges.

Fly Ash Mission, a Technology Project in Mission Mode of Government of India was commissioned during 1994 as a joint activity of Department of Science & Technology (DST), Ministry of Power (MOP) and Ministry of Environment & Forests (MoEF) with Department of Science & Technology as nodal agency. The Fly Ash Mission was set up to promote research in the area of fly ash utilization so that fly ash could be gainfully utilized instead of its disposal in ash ponds. Ministry of Environment & Forests, Government of India also issued 1st Notification on Fly Ash Utilization in September, 1999, which was subsequently amended in 2003, 2009 and 2016 stipulating targets for fly ash utilization for Thermal Power Stations and use of fly ash by construction agencies within prescribed radius of any thermal power station.

These initiatives and policy decisions by Government of India have led to increased utilization of fly ash in various construction activities like making of fly ash based building products, manufacturing of Portland pozzolana cement, construction of roads/highways/ flyovers, reclamation of low lying areas, back filling and stowing of mines, waste land development, construction of Roller Compacted concrete dams etc. Though, in 2017-18, the ash utilization level has reached to about 67% (132 MT) as compared to less than 10% (7 MT) during the year 1996-97, a lot more needs to be done.

This report brings out present status of fly ash generation at 167 coal/lignite based Thermal Power Stations and its utilization in the country. It also brings out the status of level of fly ash utilization achieved by various thermal power stations in the country vis-à-vis targets prescribed in MoEF's Notification of 14th September, 1999 and its subsequent amendments in 2003, 2009 & 2016. I am confident that the report will also be useful to all the stakeholders involved in fly ash management in the country for planning the utilization of fly ash and having necessary tie-up with the concerned thermal power station.

Data collection, its compilation, reconciliation & analysis is quite a vast task. Moreover, to provide a dependable/accurate data in desired formats is equally a major job. We acknowledge and express our gratitude to all Power Utilities and Thermal Power Station for furnishing data in a timely manner. I would also like to place on record my appreciation of the efforts made by the officers and staff of Thermal Civil Design Division. We solicit suggestion from all concerned for further improving the presentation made in the report. All suggestions/views as well as intimations for any unintended errors observed in this document may kindly be sent to Chief Engineer, TCD, CEA, Room No. 901(N), Sewa Bhawan, R.K. Puram, New Delhi (E-mail Address: tcdcea@nic.in).

(P.D. SIWAL)
Member (Thermal)

ACKNOWLEDGEMENT

I express my sincere thanks to all the power utilities and the Thermal Power Stations for furnishing the data and information for bringing out this report on Fly Ash Generation and its utilization in the country for the year 2017-18. Timely furnishing the required data and information by various Power Utilities and Thermal Power Stations to CEA is important for bringing out the report.

I am grateful to Chairperson as well as Member (Thermal), CEA for the valuable suggestions and guidance in preparation of this report.

I also express my thanks to the team comprising S/Shri Neeraj Kumar, Director, Sudipto Mandal, Deputy Director, Bhagaban Bhattacharya, Assistant Director, S. K. Sharma, Head Draughtsman and other officers of TCD Division, CEA in preparation of this report.

**FLY ASH GENERATION AT COAL/LIGNITE BASED THERMAL POWER STATIONS AND ITS
UTILIZATION IN THE COUNTRY
(FOR THE YEAR 2017-18)**

ĐỀ XUẤT MỎ THAN VÀ MỎ HÀ VÀ MỎ THAN MỎ HÀ VÀ MỎ THAN MỎ HÀ
NĂM 2017-18

1.0 BACKGROUND

Coal/Lignite based Thermal Power Generation has been the backbone of power capacity addition in the country. Indian coal is of low grade with ash content of the order of 30-45 % in comparison to imported coals which have low ash content of the order of 10-15%. Large quantity of ash is, thus being generated at coal/lignite based Thermal Power Stations in the country, which not only requires large area of precious land for its disposal but is also one of the sources of pollution of both air and water.

Central Electricity Authority (CEA) on behalf of Ministry of Power has been monitoring the fly ash generation and its utilization at coal/ lignite based thermal power stations in the country since 1996. Data on fly ash generation and utilization including modes of utilization is obtained from thermal power stations on half yearly as well as on yearly basis. The data thus obtained is analyzed and a report bringing out the status of fly ash generation and its utilization in the country is prepared. The report is forwarded to Ministry of Power, Ministry of Science & Technology and Ministry of Environment, Forests and Climate Change. It is also uploaded on the web site of CEA for bringing out the information in the public domain so that users of fly ash have access to the information on the availability of fly ash at different thermal power stations in the country, in order to facilitate and promote the utilization of fly ash.

In order to reduce the requirement of land for disposal of fly ash in ash ponds and to address the problem of pollution caused by fly ash, Ministry of Environment, Forests and Climate Change (MoEF&CC) has issued various Notifications on fly ash utilization. First Notification was issued on 14th September, 1999 which was subsequently amended in year 2003, 2009 and 2016 vide Notifications dated 27th August, 2003; 3rd November, 2009 and 25th January,2016 respectively. The amendment Notification of year 2009 prescribes the targets of Fly Ash utilization in a phased manner for all Coal/Lignite based Thermal Power Stations in the country so as to achieve 100% utilization of fly ash.

The Thermal Power Stations in operation before the date of the Notification (i.e. 3rd November, 2009) are to achieve the target of fly ash utilization in successive 5 years; 50% in first year; 60% in second year; 75% in third year; 90% in fourth year and 100% in fifth year. The new Thermal Power Stations coming into operation after the MoEF's notification (i.e. 3rd November, 2009) are to achieve the target of fly ash utilization as 50% in the first year, 70% during in second year, 90% during third year and 100% during fourth year depending upon their date of commissioning. Ministry of Environment, Forest and Climate change has recently issued an amendment to the Notification on 25th January,2016 in order to widen the scope of fly ash utilization, besides engraining upon Power Utilities to bear the cost of the transportation.

The report on "fly ash generation and its utilization at coal/lignite based thermal power stations" provides information and the status of fly ash utilization in the country. It also facilitates to ascertain the level of fly ash utilization achieved by various power stations in relation to targets prescribed in MoEF's amended notifications of 3rd November, 2009 and 25th January, 2016 and to take corrective measures in cases of Thermal Power Stations lagging behind in achieving the prescribed targets of fly ash utilization.

2.0 ASH GENERATION & UTILIZATION DURING THE YEAR 2017-18

2.1 A Brief Summary

Fly ash generation & utilization data for the Year 2017-18 (April 2017 to March 2018) has been received from 167 (One hundred sixty seven) coal/lignite based thermal power stations of various power utilities in the country. Data received has been analyzed to derive conclusions on present status of fly ash generation and its utilization in the country as a whole. A brief summary of status is given in Table-I below:

TABLE-I

SUMMARY OF FLY ASH GENERATION AND UTILIZATION DURING THE YEAR 2017-18

Description	Year 2017-18
• Nos. of Thermal Power Stations from which data was received	167
• Installed capacity (MW)	177070.00
• Coal consumed (Million tons)	624.88
• Fly Ash Generation (Million tons)	196.44
• Fly Ash Utilization (Million tons)	131.87
• Percentage Utilization	67.13
• Percentage Average Ash Content (%)	31.44

Power Station wise fly ash generation & its utilization status including modes of utilization for the 2017-18 for all the 167 thermal power stations is given in the statement at Annex-I and State wise fly ash generation & its utilization status is given in Annex-II.

2.2 Thermal Power Units Commissioned during the Year 2017-18:

During the Year 2017-18, Seven Thermal power plant with total installed capacity of 3,630 MW as given in Table-II below have been commissioned:

TABLE-II

Thermal Power Units Commissioned During the Year 2017-18

Sl. No.	Name of Thermal Power Station	Name of Power Utility	Unit No.	Capacity (MW)	Date of Commission
1	2	3	4	5	6
2017-18					
1	SOLAPUR TPS	NTPC LTD. (Maharashtra)	2	660.00	April,2017
2	YERAMARUS TPS	RAICHUR POWER CORPORATION LIMITED (Karnataka)	2	800.00	06.04.2017

GRAND TOTAL		167	177070.00	196.4410	131.8663	67.13

It may be seen from the Table-IV above that:

The data of fly ash generation and utilization for year 2017-18 was received from 87 Power Utilities out of which **31** Power Utilities have achieved fly ash utilization level of 100% or more and **15** Power Utilities have achieved fly ash utilization level in the range of less than 100% to 90%;

The performance of these (46) power utilities in fly ash utilization has been excellent during the aforesaid period (i.e. during the year 2017-18).

2.5 State wise Status of Fly Ash Generation & its Utilization during the Year 2017-18

The state wise status of fly ash generation & utilization in the country based on data received from Thermal Power Stations/ Power Utilities has also been assessed and the same is given in Table-V below:

TABLE-V

STATE WISE FLY ASH GENERATION AND ITS UTILIZATION DURING THE YEAR 2017-18

Sl. No.	Name of State	Nos. of TPS	Installed Capacity (MW)	Fly Ash Generation (Million-tonne)	Fly Ash Utilization (Million-tonne)	Percentage Utilization %
1	2	3	4	5	6	7
1	ANDHRA PRADESH	9	12270.00	16.1997	13.8517	85.51

13	PUNJAB	5	6020.00	4.8252	4.9311	102.19
14	RAJASTHAN	6	5285.00	6.3430	6.6564	104.94
15	TAMILNADU	14	12460.00	10.4287	6.9949	67.07
16	TALANGANA	6	2882.50	5.6021	2.5357	45.26
17	UTTAR PRADESH	18	19570.00	25.2500	13.8415	54.82
18	WEST BENGAL	16	14112.00	17.5814	15.1127	85.96
GRAND TOTAL		167	177070.00	196.4410	131.8663	67.13

It may be seen from Table-V above that:

- (i) 8 states namely Andhra Pradesh, Chhattisgarh, Madhya Pradesh, Maharashtra, Odisha, Tamil Nadu, Uttar Pradesh and West Bengal have generated more than 10 million-ton of fly ash each with Chhattisgarh as the maximum of 27.6227 million tons during the Year 2017-18.
- (ii) During the Year 2017-18 -Union territory of Delhi and states of Punjab and Rajasthan have achieved fly ash utilization level of more than 100 %. Similarly, States of Gujarat, Haryana and Jharkhand achieved the fly ash utilization level of more than 95 %.
- (iii) During 2017-18, Thermal Power Stations in Assam, Bihar, Madhya Pradesh and Telangana utilized less than 50% of fly ash.

3.0 TARGETS FOR FLY ASH UTILIZATION AS PER MoEF'S NOTIFICATION OF 3rd NOVEMBER, 2009

The notification set the target for the thermal power stations which were in operation before the date of notification i.e 3.11.2009 as well as the new thermal power stations to be commissioned after the notification i.e 3.11.2009. The same have been brought out below:

3.1 Thermal Power Station in Operation as on 3rd November, 2009

All coal and, or lignite based thermal Power Stations and, or expansion units in operation before the date of MoEF's notification i.e. 03.11.2009 were to achieve the target of fly ash utilization as per the Table-VI given below:

TABLE-VI

TARGETS FOR FLY ASH UTILIZATION FOR THERMAL POWER STATIONS IN OPERATION BEFORE 3rd NOVEMBER, 2009

Sl. No.	Target of Fly Ash Utilization (In Percentage)	Target Date
(1)	(2)	(3)
1	At least 50% of Fly Ash generation	One year from the date of issue of notification
2	At least 60% of Fly Ash generation	Two years from the date of issue of notification
3	At least 75% of Fly Ash generation	Three years from the date of issue of notification
4	At least 90% of Fly Ash generation	Four years from the date of issue of notification
5	100% of Fly Ash generation	Five years from the date of issue of notification

The unutilized fly ash, if any, in relation to the target during a year would be required to be utilized within next two years in addition to the targets stipulated for those years and the balance unutilized fly ash accumulated during first five years (the difference between the generation and the utilization target) would be required to be utilized progressively over the next five years in addition to 100% utilization of current generation of fly ash.

3.2 Thermal Power Station Commissioned after 3rd November, 2009

New coal and, or lignite based thermal Power Stations and, or expansion units commissioned after issue of MoEF's notification of 3rd November, 2009 are to achieve the target of fly ash utilization as per Table-VII given below:

TABLE-VII

TARGETS FOR FLY ASH UTILIZATION FOR THERMAL POWER STATION COMMISSIONED AFTER 3rd NOVEMBER, 2009

Sl. No.	Fly Ash Utilization Level	Target Date
(1)	(2)	(3)
1	At least 50% of fly ash generation	One year from the date of Commissioning
2	At least 70% of fly ash generation	Two years from the date of Commissioning
3	90% of fly ash generation	Three years from the date of Commissioning
4	100% of fly ash generation	Four years from the date of commissioning

The unutilized fly ash, if any, in relation to the target during a year would be required to be utilized within next two years in addition to the targets stipulated for these years and the balance unutilized fly ash accumulated during first four years (the difference between the generation and utilization target) would be required to be utilized progressively over next five years in addition to 100% utilization of current generation of fly ash.

4.0 PRESENT STATUS OF FLY ASH UTILIZATION AS PER MoEF'S NOTIFICATION OF 3rd NOVEMBER, 2009

Fly ash generation and utilization data received from Thermal Power Stations/Power Utilities in the country for the year 2017-18 has been broadly analyzed to ascertain the power stations which have achieved the targets of fly ash utilization as prescribed in MoEF's notification of 3rd November, 2009.

During the Year 2017-18, all those thermal power stations which were in operation on the date of issue of MoEF's notification (i.e. 3rd November, 2009) should have achieved the target of fly ash utilization of 100% within five years from the date of notification i.e. by 3rd November, 2014. All those thermal power stations which have come into operation after the date of issue of MoEF's notification (i.e. 3rd November, 2009) should have achieved the target of fly ash utilization as specified in Table-VII above depending upon their date of commissioning. .

4.1 Status during the Year 2017-18

To have a broad assessment of the achievement of targets of fly ash utilization by those thermal power stations which were in operation as on 3rd November, 2009 (i.e. date of MoEF's Notification) for the year 2017-18, the fly ash utilization in terms of percentage as achieved by thermal power stations as on 31st March, 2018 has been compared with the targets of fly ash utilization required to be achieved by them for the Year 2017-18 as per MoEF's Notification of 3rd November, 2009.

For thermal power stations which were commissioned after 3rd November, 2009 (i.e. date of MoEF's Notification), the fly ash utilization in terms of percentage as achieved by them as on 31st March, 2018 for the year 2017-18 has been compared with the targets of fly ash utilization required to be achieved by them as per MoEF's Notification of 3rd November, 2009

For Thermal Power Stations which were commissioned after 3rd November, 2016, the target of fly ash utilization of 50% as applicable for the 1st year from the date of commissioning has been considered. Similarly, the targets of fly ash utilization of 70%, 90% and 100% has been considered for new Thermal Power Stations which were commissioned after 3rd November, 2015, after 3rd November, 2014 and before 3rd November, 2014 respectively.

Based on above, the status of achievement of targets of fly ash utilization as prescribed in MoEF's notification of 3rd November, 2009 for the Year 2017-18 has been assessed and status of the same is given in Table-VIII below.

TABLE-VIII

STATUS OF UTILIZATION OF FLY ASH AS PER MOEF'S NOTIFICATION DATED 3rd NOVEMBER, 2009 FOR THE YEAR 2017-18

Sl. No.	Description	Nos. of TPS
(1)	(2)	(3)
1	Nos. of TPS which have achieved the target of fly ash utilization as per MoEF's Notification of 3 rd November, 2009 (Refer table XVI)	69
2	Nos. of TPS which have not been able to achieve the target of fly ash utilization as per MoEF's Notification of 3 rd November, 2009(Refer table- XVII)	93

X-IVGAI
BROM KQ JPOOL RO TIVEL MGTIAKJETU HZA YJR HTIW PHOTATA S RAWO JAMHINT
AII-SIOP RABY EHT ENIRUG

Sl. No.	Description	Nos. of TPS
(1)	(2)	(3)
3	Nos. of TPS which have not generated any significant fly ash or any fly ash(Refer table- XVIII)	5
	Total	167

It may be seen from Table-VIII above that:

During the Year 2017-18, out of **167** (one hundred sixty seven) thermal power stations for which data was received, **69 (sixty nine)** power stations have achieved the targets of fly ash utilization as stipulated in MoEF's Notification of 3rd November, 2009.

To increase the fly ash utilization MoEF&CC have issued an amendment on 25th January, 2016. The amendment is enclosed at **Annex-III**. As per the amendment notification the target date for 100% ash utilization has been revised to 31st December, 2017

4.2 Range of Fly Ash Utilization during the Year 2017-18

Based on the fly ash utilization data received from Thermal Power Stations/Power Utilities, the Thermal Power Stations have been grouped into 6 (six) categories as noted below depending upon range of utilization of fly ash by the stations:

TABLE-IX

RANGE OF PERCENTAGE FLY ASH UTILIZATION DURING THE YEAR 2017-18

Sl. No.	Level of Fly Ash utilization	Nos. of Power Stations
(1)	(2)	(3)
1	100% and more than 100% (Refer table- X)	60
2	Less than 100% and up to 90% (Refer table- XI)	23
3	Less than 90% and up to 70% (Refer table- XII)	28
4	Less than 70% and up to 50% (Refer table- XIII)	16
5	Less than 50% (Refer table- XIV)	35
6	Nos. of TPS which have not generated any significant fly ash or any fly ash (Refer table- XV)	5
	Total	167

4.3 Thermal Power Stations that have achieved Fly Ash utilization level of 100% or more during the Year 2017-18

The following Thermal Power Stations achieved the fly ash utilization level of 100% or more during the year 2017-18. The fly ash utilization level achieved by each of these power stations is given in Table-X below:

TABLE-X
THERMAL POWER STATIONS WITH FLY ASH UTILIZATION LEVEL OF 100% OR MORE
DURING THE YEAR 2017-18

Sl. No.	Name of TPS	Power Utility	Installed Capacity (MW)	Fly ash Generation (Mt)	Fly ash Utilization (Mt)	% age Utilization

It may be seen from Table-X above that:

During the Year 2017-18, **60** Thermal Power Stations have achieved the fly ash utilization level of 100% or more including **44** thermal power stations which have achieved fly ash utilization level of more than 100%.

Fly ash utilization level of more than 100% indicates that besides ash generation during the period of report 2017-18, additional fly ash from ash pond was utilized.

4.4 Thermal Power Stations in Fly Ash Utilization Range of less than 100% and up to 90% during the Year 2017-18

The Thermal Power Stations which have achieved the fly ash utilization level of less than 100% and up to 90% during the year 2017-18 along with fly ash utilization level achieved by each of these power stations are given in Table-XI below:

TABLE-XI

THERMAL POWER STATIONS WITH FLY ASH UTILIZATION LEVEL OF LESS THAN 100% AND UP TO 90% DURING THE YEAR 2017-18

It may be seen from Table-XIV above that:

During the year 2017-18, out of **167** (one hundred sixty seven) Thermal Power Stations, **35** stations could not reach the level of fly ash utilization to 50%.

TABLE-XV

THERMAL POWER STATIONS WITH NO ASH GENERATION DURING THE YEAR 2017-18

Sl. No.	Name of TPS	Power Utility	Installed Capacity (MW)	Fly ash Generation (Mt)	Fly ash Utilization (Mt)	% age Utilizati on
(1)	(2)	(3)	(4)	(5)	(6)	(7)
1	GEPL TPP	GUPTA ENERGY Pvt. Ltd. (Maharashtra)	120.00	0.0000	0.0000	0.0000
2	RAJGHAT TPP	IPGCL (DELHI)	135.00	0.0000	0.0000	0.0000
3	MIHAN TPP	AMNEPL (Maharashtra)	246.00	0.0000	0.0000	0.0000
4	T.G.S. TPP	C.E.S.C. (WEST BENGAL)	240.00	0.0000	0.0000	0.0000
5	PATRATU TPP	Patratu Vidyut Utpadan Nigam Ltd.. (Chhattisgarh)	455.00	0.0000	0.0000	0.0000

It may be seen from Table-XV above that:

It may be seen from Table-XV above that **05** thermal power stations during the year 2017-18 have not generated any significant fly ash.

5.0 FLY ASH UTILIZATION STATUS AS PER NOTIFICATION OF 3RD NOVEMBER, 2009 DURING THE YEAR 2017-18 (TARGET ACHIEVED/NOT ACHIEVED)

As per the targets mandated by the MoEF&CC's notification of dated 3rd November, 2009 for fly ash utilization by the power stations, a total of **69** stations achieved their target and as many as **93** Nos. could not reach the targets,. The details are given at Table- XVI and XVII respectively. However, the date of achieving the 100% ash utilization target is now extended to 31st December, 2017 as per new amendment notification dated 25th January, 2016.

TABLE-XVI
FLY ASH UTILIZATION STATUS AS PER NOTIFICATION OF 3RD NOVEMBER, 2009

6.0 MODES OF FLY ASH UTILIZATION DURING THE YEAR 2017-18

The data on fly ash utilization received from Thermal Power Stations/Power Utilities for the year 2017-18 has been analyzed to ascertain the modes in which fly ash was utilized and the quantity utilized in each mode.

The modes in which fly ash were utilized during the year 2017-18 along with utilization in each mode are given in Table-XVIII below:

TABLE-XVIII

MODES OF FLY ASH UTILIZATION DURING THE YEAR 2017-18

Sl. No.	Mode of utilization	Quantity of Fly Ash utilized in the mode of utilization (from Annexure - I)	
		Million-ton	Percentage (%)
(1)	(2)	(3)	(4)
1	Cement	50.2909	25.60
2	Mine filling	12.5159	6.37
3	Bricks & Tiles	17.6943	9.01
4	Reclamation of low lying area	20.5779	10.48
5	Ash Dyke Raising	13.5500	6.90
6	Roads & flyovers	6.6733	3.40
7	Agriculture	0.5732	0.29
8	Concrete	1.2974	0.66
9	Hydro Power Sector	0.0077	0.004
10	Others	8.6857	4.42
11	Unutilized Fly Ash	64.5747	32.87
Total		196.4410	100.00

The pie diagram showing the modes of utilization of fly ash during the Year 2017-18 is given in Figure-1 below:

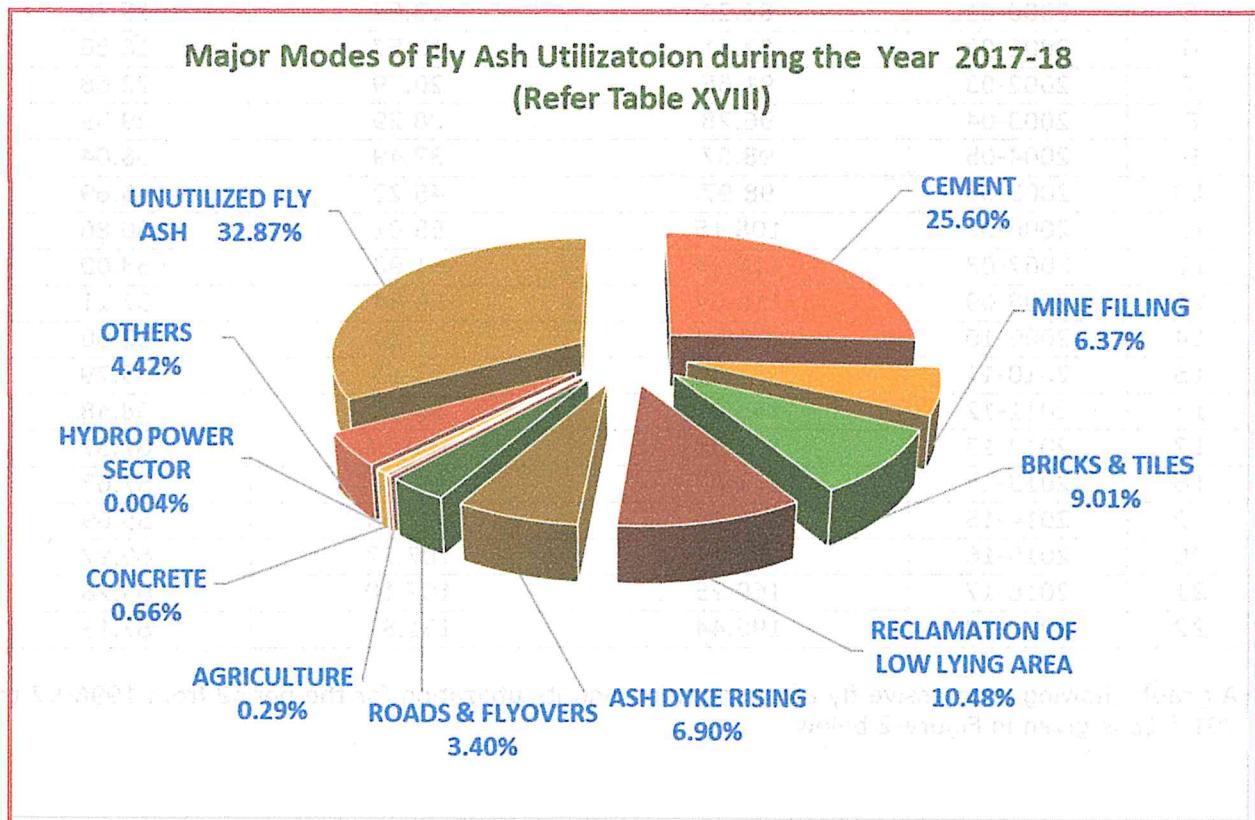

FIGURE-1

It may be seen from Table-XVIII and Figure -1 above that:

During the Year 2017-18, the maximum utilization of fly ash to the extent of 25.60% of total fly ash generated was in the Cement sector, followed by 10.48 % in Reclamation of Low lying area, 9.01 % in Bricks & Tiles, 6.90 in Ash Dyke, 6.37 % in Mine Filling, 3.40 % in roads & Flyovers, 0.66 % in Concrete, 0.29 % in Agriculture 0.004 % in Hydro Power Sector, 4.42 % in Others and 32.87% remained as unutilized fly ash.

7.0 PROGRESSIVE FLY ASH GENERATION & UTILIZATION DURING THE PERIOD FROM 1996-97 TO 2018-18

Central Electricity Authority has been monitoring since 1996-1997, the fly ash generation and its utilization at coal/lignite based thermal power stations in the country. Based on data of fly ash generation and utilization received from Thermal Power Stations/Power Utilities since 1996-97, the progressive fly ash generation and its utilization for the period from 1996-97 to 2017-18 is given in Table-XIX below:

TABLE-XIX

PROGRESSIVE FLY ASH GENERATION AND ITS UTILIZATION DURING THE PERIOD FROM 1996-97 TO 2017-18

Sl. No.	Year	Fly Ash Generation (Million-ton))	Fly Ash Utilization (Million-ton)	Fly Ash Utilization in % age
(1)	(2)	(3)	(4)	(5)
1	1996-97	68.88	6.64	9.63
2	1997-98	78.06	8.43	10.80
3	1998-99	78.99	9.22	11.68
4	1999-2000	74.03	8.91	12.03
5	2000-01	86.29	13.54	15.70
6	2001-02	82.81	15.57	18.80
7	2002-03	91.65	20.79	22.68
8	2003-04	96.28	28.29	29.39
9	2004-05	98.57	37.49	38.04
10	2005-06	98.97	45.22	45.69
11	2006-07	108.15	55.01	50.86
12	2007-08	116.94	61.98	53.00
13	2008-09	116.69	66.64	57.11
14	2009-10	123.54	77.33	62.60
15	2010-11	131.09	73.13	55.79
16	2011-12	145.41	85.05	58.48
17	2012-13	163.56	100.37	61.37
18	2013-14	172.87	99.62	57.63
19	2014-15	184.14	102.54	55.69
20	2015-16	176.74	107.77	60.97
21	2016-17	169.25	107.10	63.28
22	2017-18	196.44	131.87	67.13

A graph showing progressive fly ash generation and its utilization for the period from 1996-97 to 2017-18 is given in Figure-2 below:

generation of fly ash has increased from 68.88 million-ton in 1996-97 to 196.44 million-ton in 2017-18. Fly ash utilization has increased from 6.64 million-ton in 1996-97 to 131.87 million-ton in 2017-18.

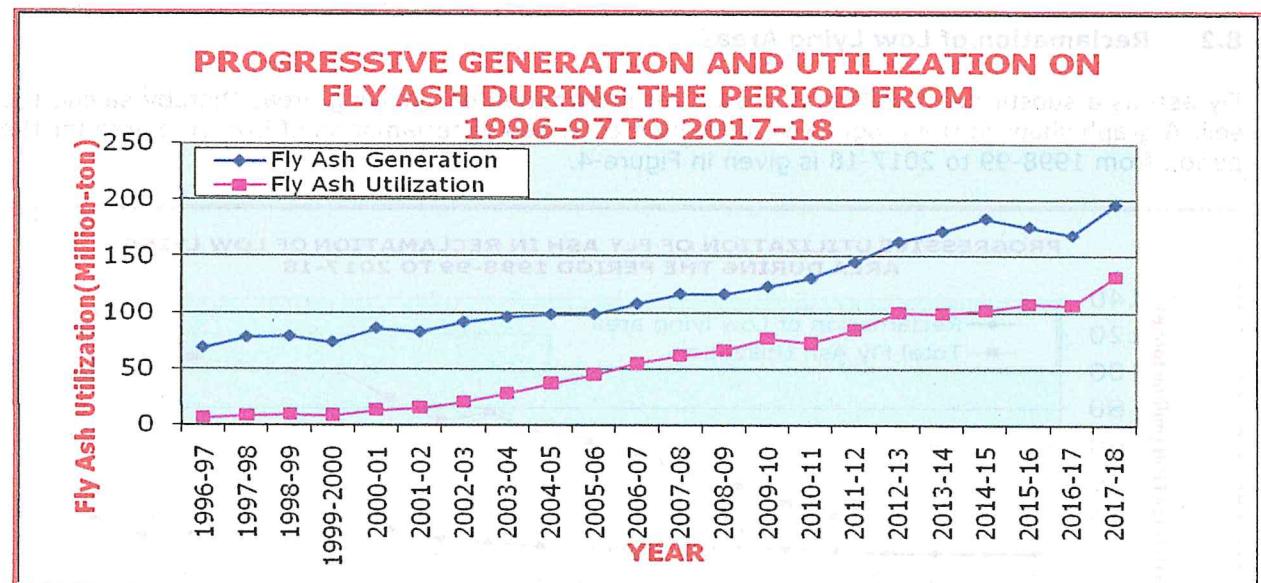

FIGURE-2

It may be seen from Table-XIX and Figure-2 above that:

- The fly ash generation as well as utilization has generally been increasing since 1996-97.
- Fly ash utilization has increased from 9.63% in 1996-97 to the highest level of 67.13% during 2017-18.
- The fly ash generation has increased from 68.88 million-ton in 1996-97 to 196.44 million-ton in 2017-18 i.e. nearly 2.85 times.
- However, fly ash utilization has increased from 6.64 million-ton in 1996-97 to a level of 131.87 million ton in 2017-18 i.e. nearly more than 19.86 times over the same period.
- From the Table XIX, it is seen that quantities of fly ash generation during 2014-15, 2015-16, 2016-17 and 2017-18 have been 184.14, 176.74 ,169.25 and 196.44 million-ton respectively. Fly ash utilization during the said four years are 102.54, 107.77, 107.10 and 131.87 million-ton. The utilization of fly ash during 2017-18 is the highest ever so far.

8.0 PROGRESSIVE FLY ASH UTILIZATION IN VARIOUS MODES DURING THE PERIOD FROM 1998-99 TO 2017-18

8.1 Cement Industry

Fly ash is being used by Cement Industry as a pozzolanic material in manufacturing of Portland Pozzolana Cement. It saves both precious lime stone and coal. The utilization of fly ash in manufacturing of cement is highly value added use. A graph showing progressive utilization of fly ash by Cement Industry for the period from 1998-99 to 2017-18 is given in Figure-3 below:

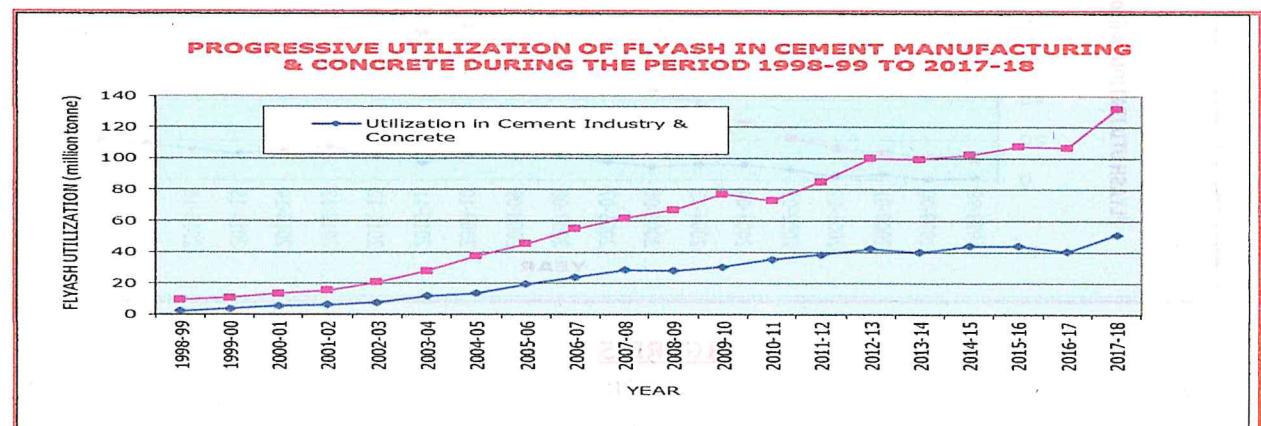

FIGURE-3

It may be seen from Figure-3 above that 2.45 million-ton of fly ash was used by Cement Industry in 1998-99 which increased to 50.29 million-ton during 2017-18 and constituted 25.60 % of total fly ash utilization in the aforesaid year.

8.2 Reclamation of Low Lying Areas

Fly ash as a substitute of soil/sand is used for reclamation of low lying areas thereby saving top soil. A graph showing the progressive utilization of fly ash in reclamation of low lying area for the period from 1998-99 to 2017-18 is given in Figure-4.

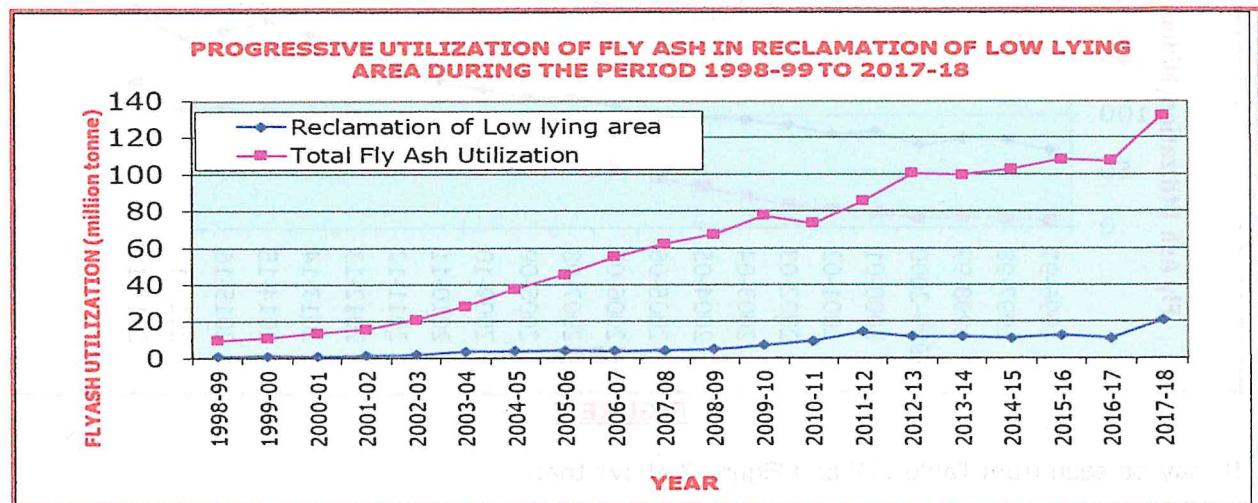

FIGURE-4

It may be seen from Figure-4 above that 4.17 million-ton of fly ash was used for reclamation of low lying area in 1998-99 which has increased to 20.58 million ton in 2017-18 constituting 10.48% of total fly ash utilization during the aforesaid year.

8.3 Construction of Roads/Embankments/Flyovers and raising of Ash Dykes

Fly ash is being used in construction of roads/embankments/flyovers and the raising of ash dykes. It has a large potential for fly ash utilization. A graph showing the progressive utilization of fly ash in the construction of roads & embankments and the raising of ash dykes for the period from 1998-99 to 2017-18 is given in Figure-5 below:

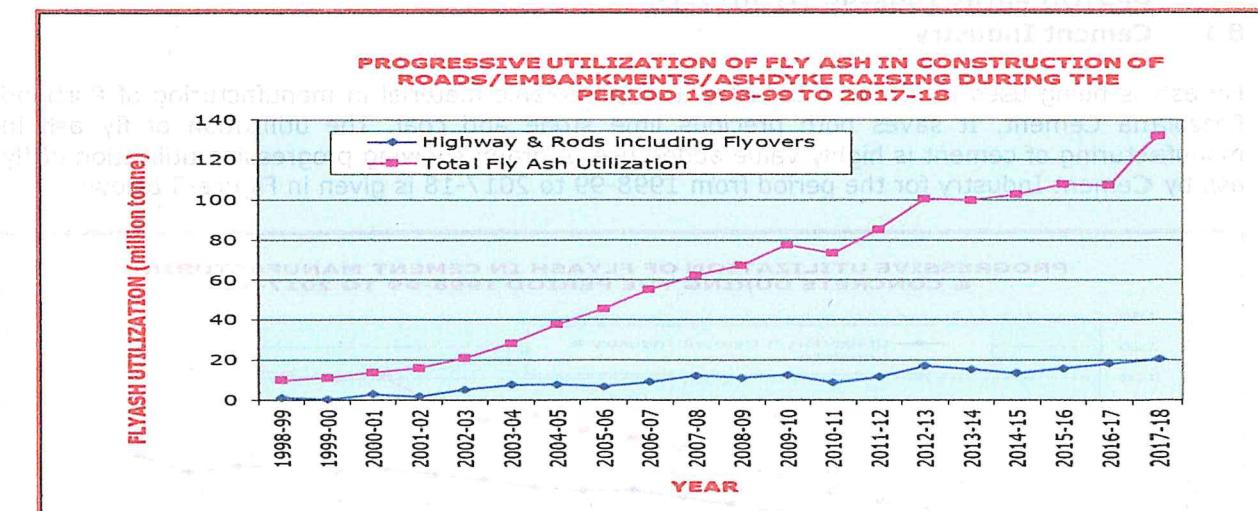

FIGURE-5

utilization of fly ash in construction of roads/embankments/flyovers and raising of ash dykes etc. during 1998-99 which increased to 20.22 million-ton in 2017-18 and constituted 10.29 % of total fly ash utilization in the aforesaid year. However, falling trend in recent past is seen.

8.4 Back Filling/Stowing of Mines

Fly ash is being used for backfilling of open cast mines and stowing of underground mines which results in saving of top fertile soil and precious river sand. It has large potential for fly ash utilization especially for pit head thermal power stations. A graph showing the progressive utilization of fly ash in backfilling/stowing of mines for the period from 1998-99 to 2017-18 is given in Figure-6:

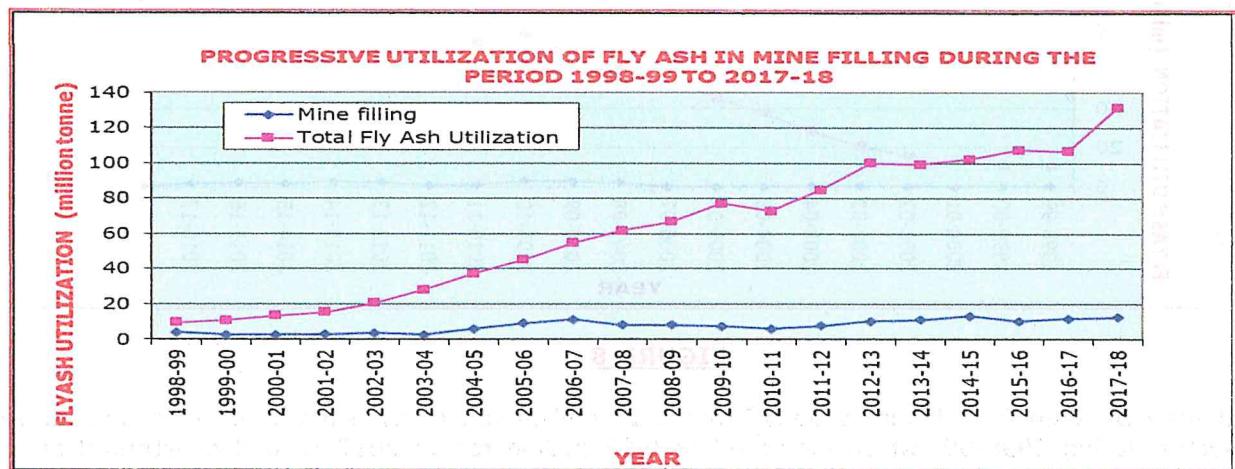

FIGURE-6

It may be seen from Figure-6 above that 0.65 million-ton of fly ash was used for backfilling/stowing of open cast and underground mines during 1998-99 which increased to 12.52 million-ton in 2017-18 constituting 6.37 % of total fly ash utilization in the aforesaid year. The trend was on increasing side and increase in this year as compared to last year.

8.5 Building Materials like Bricks, Blocks and Tiles etc.

Fly ash is used in manufacturing of fly ash based building products like bricks, blocks, tiles etc which results in saving of fertile top soil. Fly ash based bricks/blocks/tiles are as good as clay based conventional building products. It has substantial potential of fly ash utilization especially for thermal power stations located near load centers. A graph showing progressive utilization of fly ash in making of fly ash based building products for the period from 1998-99 to 2017-18 is given in Figure -7.

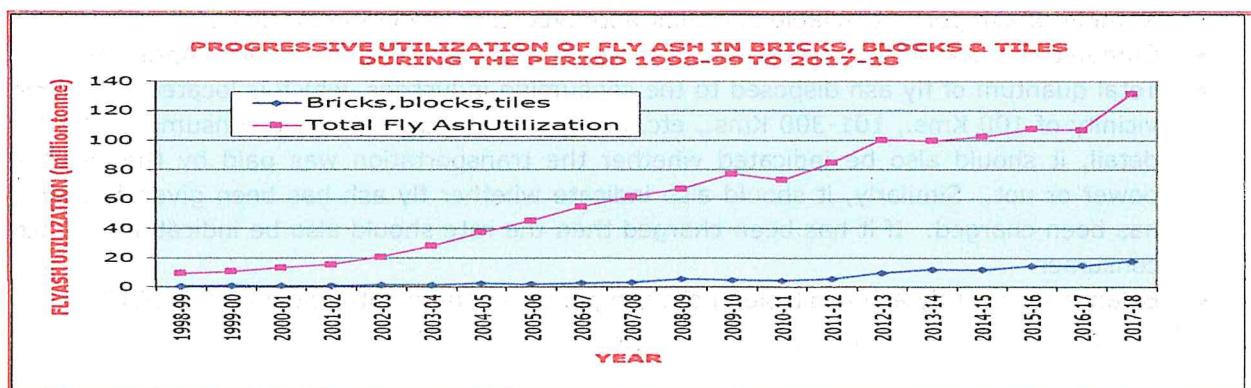

FIGURE-7

It may be seen from Figure-7 above that 0.70 million-ton of fly ash was used for making of fly ash based bricks/blocks/tiles etc during 1998-99 which increased to 17.69 million-ton in 2017-18 and constituted 9.01 % of total fly ash utilization in the aforesaid year.

8.6 Agriculture

Fly ash is being used as manure in agricultural sector as it has many micronutrients. The progressive utilization of fly ash in Agricultural Sector for the period from 1998-99 to 2017-18 is given in Figure-8.

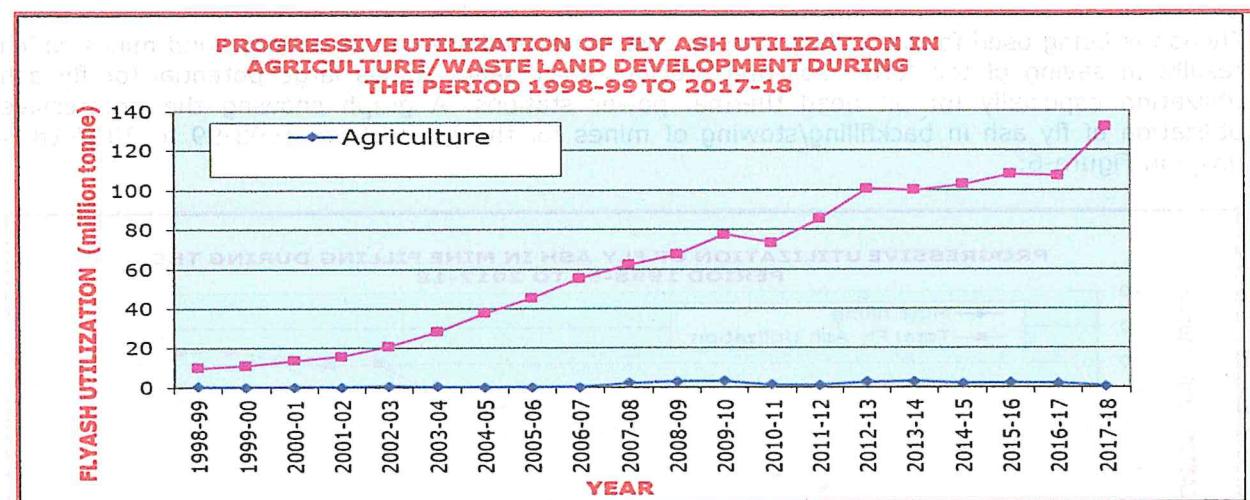

FIGURE-8

It may be seen from Figure-8 above that 0.13 million ton of fly ash was used in agricultural sector during 1998-99, which increased to 0.57 million ton in 2017-18 and constituted about 0.29 % of total fly ash utilization in the aforesaid year.

9.0 WEB BASED MONITORING SYSTEM AND A MOBILE APPLICATION FOR UTILIZATION OF FLY ASH

Annual Fly ash utilization has remained 67.13% of the fly ash generated and therefore, it has become a matter of concern in view of its environmental effect. Besides, progressive accumulation may lead to a situation when ash pond may not be in a position to accommodate fly ash further. Due to the importance of utilization of fly ash & slag for reducing the burden on the environment, NITI AAYOG has convened several meetings on policy framework on utilization of fly ash and slag. During the meeting held on 17.03.2017, it was decided by NITI AAYOG that an online repository of the fly ash generated by thermal power plants indicating the following parameters should be launched by Ministry of Power by 15th April, 2017:

- Cumulative amount of fly ash available in the ash ponds as on 31.3.2017
- Quantum of fly ash generated for the respective month (Ex. For the month of April 2017)
- Number of ash ponds available and their approved capacity in metric tonne
- Cumulative stock of fly ash available in the ponds for the month as on 30th April 2017
- Total quantum of fly ash disposed to the consuming industries, which is located within the vicinity of 100 Kms., 101-300 Kms., etc. along with the details of the consumers. In this detail, it should also be indicated whether the transportation was paid by the thermal power or not. Similarly, it should also indicate whether fly ash has been given free or it has been charged. If it has been charged then the rate should also be indicated for each consumer
- Balance stock of fly ash available in the ash ponds for the month ending April ,2017

Accordingly, a web based monitoring system and a mobile application (Ash Track) have been developed by CEA with collaboration of M/s NTPC Limited on behalf of Ministry of Power. Login ID and password have been issued to Power Utilities/ Thermal Power Stations for uploading the monthly data of fly ash generation and its utilization. A workshop for facilitating the users had been organized on 28th August, 2017. Further, two video conferences had also been organized on the above issues on dated 12.09.2017 and 05.10.2017 with the help of M/s NTPC Limited. Feeding of data by the Thermal Power Stations on the web based monitoring system is under progress.

10.0 CONCLUSIONS & RECOMMENDATIONS

1. The fly ash generation during 2017-18 is 196.44 MT due to combustion of 624.88 MT coal. During 2016-17, 169.25 MT of fly ash was generated due to combustion of 509.46 MT coal. However, the fly ash utilizations during 2016-17 and 2017-18 are 107.10 MT and 131.87 MT respectively. It is seen that the absolute quantity of fly ash utilization has increased as compared to last year and similarly the percentage utilization of fly ash has increased.
2. The highest level of fly ash utilization of about 67.13% is achieved during the year 2017-18. It would require a lot of efforts to achieve the target of 100% utilization of fly ash. The stipulations of notification of 2009 and recent amendment should be effectively implemented. As per this report about 32.87% un-utilized fly ash is lying dumped at the various Thermal Power Stations in the country.
3. A few strategies which need to be adopted to further increase the utilization level of fly ash are given below:
 - Renovation and modernization of coal/lignite based Thermal Power Stations need to include the technological advancement required to ensure development of dry fly ash collection, storage and disposal facilities so that fly ash in dry form could be made available to its users. Renovation and modernization should also include a marketing strategy for the development of fly ash based industries and making available fly ash and fly ash based building products in the nearby markets.
 - As per MoEF&CC's Amendment Notification dated 25.01.2016, Para 2 (14) " The coal or lignite based thermal power plants shall within a radius of three hundred kilometers bear the entire cost of transportation of ash to the site of road construction projects under Pradhan Mantri Gramin Sadak Yojana and asset creation programmes of the Government involving construction of building, road, dams and embankments ". The meaning of the words "Asset Creation Programme of the Government" may be read in the context of projects carried out under certain plan scheme of the Government Department. In this regard, The Ministry of Environment, Forest and climate change (MoEF&CC) has clarified that road being constructed by NHAI as well as the State Government are covered by the Notification dated 25.01.2016 in order to fully utilize the fly ash.
 - Use of fly ash in the construction of embankments for laying railway lines has also significant potential for large scale utilization of fly ash. There are safety concerns in use of fly ash in the construction of railway embankments having passenger traffic. There is a need to address these concerns by carrying out necessary studies by organizations like RDSO, a research organization under the Ministry of Railways.
 - Thermal Power Stations have to ensure the utilization of fly ash and fly ash based building products within the thermal power station for the development of infrastructure like construction of buildings & roads, reclamation of low lying areas, the raising of ash dyke etc.
 - The use of fly ash in Agriculture and waste land development has large potential. Department of Science and Technology Govt. of India, through their research Projects, has established that use of fly ash in agriculture is safe.

- A large number of technologies have been developed for gainful utilization and safe management of fly ash through research projects funded by Fly Ash Mission/ Fly Ash Unit under Ministry of Science & Technology, GOI since 1994. Propagation of these technologies by establishing 'Self-sustaining technology demonstration centers' would facilitate and accelerate the fly ash utilization in the country.
- Thermal Power Stations have to explore and promote all possible modes of fly ash utilization at their respective thermal power station for increasing the fly ash utilization in the country in line with MoEF's notification of 3rd November, 2009.
- There is a need to encourage 'Industry-Institute Interactions' for entrepreneur development, creating awareness and organizing training programmes and workshops.
- Induction of 'Fly Ash' as a subject in academic curriculum of Engineering and Architecture is needed.

With the above recommendations, it is expected that the concerned ministries, central and state governments, industry, academia, NGOs and other stakeholders will take appropriate measures to implement the recommendations. It is also expected that the concerned ministries will take up the implementation of the recommendations in the near future.

The Ministry of Environment and Forests has issued a circular dated 3 November 2009, regarding the utilization of fly ash generated from thermal power stations.

It is recommended that the concerned ministries, central and state governments, industry, academia, NGOs and other stakeholders will take appropriate measures to implement the recommendations. It is also recommended that the concerned ministries will take up the implementation of the recommendations in the near future.

It is recommended that the concerned ministries, central and state governments, industry, academia, NGOs and other stakeholders will take appropriate measures to implement the recommendations. It is also recommended that the concerned ministries will take up the implementation of the recommendations in the near future.

It is recommended that the concerned ministries, central and state governments, industry, academia, NGOs and other stakeholders will take appropriate measures to implement the recommendations. It is also recommended that the concerned ministries will take up the implementation of the recommendations in the near future.

It is recommended that the concerned ministries, central and state governments, industry, academia, NGOs and other stakeholders will take appropriate measures to implement the recommendations. It is also recommended that the concerned ministries will take up the implementation of the recommendations in the near future.

NEW DELHI, WEDNESDAY, JANUARY 27, 2016/ MAGHA 7, 1937

पर्यावरण, वन और जलवायु परिवर्तन मंत्रालय

अधिसूचना

नई दिल्ली, 25 जनवरी, 2016

का.आ. 254(ग).—भारत सरकार, पर्यावरण, वन और जलवायु परिवर्तन मंत्रालय की अधिसूचना सं. का.आ. 763(अ), तारीख 14 सितंबर, 1999 (जिसे इसमें इसके पश्चात् उक्त अधिसूचना कहा गया है) में कतिपय संशोधनों का प्रारूप, जिन्हें केन्द्रीय सरकार पर्यावरण (संरक्षण) नियम, 1986 के नियम 5 के उप-नियम (3) के खंड (घ) के साथ पठित पर्यावरण (संरक्षण) अधिनियम, 1986 (1986 का 29) की धारा 3 की उप-धारा (1) और उप-धारा (2) के खंड (V) के अंतर्गत करने का प्रस्ताव करती है, भारत के राजपत्र, असाधारण, भाग II, खंड 3, उप-खंड (ii) में अधिसूचना सं. का.आ. 1396(अ), तारीख 25 मई, 2015 द्वारा प्रकाशित किया गया था, जिसके द्वारा ऐसे सभी व्यक्तियों से, जिनके उनसे प्रभावित होने की संभावना थी, उस तारीख से, जिसको उक्त प्रारूप संशोधनों को अंतर्विष्ट करने वाली राजपत्र की प्रतियां जनता को उपलब्ध करा दी जाती हैं, साठ दिनों के अवसान से पूर्व आक्षेप और सुझाव आमंत्रित किए गए थे;

और उक्त राजपत्र की प्रतियां 25 मई, 2015 को जनता को उपलब्ध करा दी गई थीं;

और उक्त प्रारूप अधिसूचना के संबंध में, ऐसे सभी व्यक्तियों से, जिनके उनसे प्रभावित होने की संभावना थी, प्राप्त सभी आक्षेपों और सुझावों पर केन्द्रीय सरकार द्वारा सम्यक् रूप से विचार कर लिया गया है;

अतः, अब, केन्द्रीय सरकार पर्यावरण (संरक्षण) नियम, 1986 के नियम 5 के उप-नियम (3) के खंड (घ) के साथ पठित पर्यावरण (संरक्षण) अधिनियम, 1986 (1986 का 29) की धारा 3 की उप-धारा (1) और उप-धारा (2) के खंड (V) द्वारा प्रदत्त शक्तियों का प्रयोग करते हुए उक्त अधिसूचना में निम्नलिखित संशोधन करती है, अर्थात् :-

1. उक्त अधिसूचना के पैरा 1 में-

- (क) उप पैरा 1(क) में “सौ किलोमीटर” शब्दों के स्थान पर “तीन सौ किलोमीटर” शब्द रखें जाएंगे;
- (ख) उप पैरा 3 में “100 कि.मी.” अंकों और शब्दों के स्थान पर “तीन सौ किलोमीटर” शब्द रखें जाएंगे;
- (ग) उप पैरा 5 में “सौ किलोमीटर” शब्दों के स्थान पर “तीन सौ किलोमीटर” शब्द रखें जाएंगे;
- (घ) उप पैरा 7 में “सौ किलोमीटर” शब्दों के स्थान पर “तीन सौ किलोमीटर” शब्द रखें जाएंगे;

2. उक्त अधिसूचना के पैरा 2 में:-

(क) उप पैरा (1) के पश्चात् निम्नलिखित परंतुक अंतःस्थापित किया जाएगा, अर्थात्:-

“परंतु यह और कि शुष्क ईएसपी फ्लाई ऐश के 20 प्रतिशत का निःशुल्क प्रदाय करने का निर्बंधन उन तापीय विद्युत संयंत्रों पर लागू नहीं होगा, जो विहित रीति में सौ प्रतिशत फ्लाई ऐश का उपयोग करने में समर्थ हैं।”

(ख) उप पैरा (7) के पश्चात् निम्नलिखित उप पैरा अंतःस्थापित किए जाएंगे, अर्थात् :-

- (8) प्रत्येक कोयला या लिग्नाइट आधारित तापीय विद्युत संयंत्र (जिसके अंतर्गत कैपटिव और/या सह उत्पादन केन्द्र भी हैं), अधिसूचना की तारीख से तीन मास के भीतर उनके पास उपलब्ध प्रत्येक किस्म की ऐश के स्टाक के ब्यौरे अपनी वेबसाइट पर अपलोड करेगा और उसके पश्चात् मास में कम से कम एक बार स्टाक की स्थिति को अद्यतन करेगा।
- (9) प्रत्येक कोयला या लिग्नाइट आधारित तापीय विद्युत संयंत्र समर्पित शुष्क ऐश साइलोस प्रतिष्ठापित करेगा, जिनके पास पृथक पहुंच मार्ग होंगे, जिससे कि फ्लाई ऐश के परिदान को सुगम बनाया जा सके।
- (10) कोयला या लिग्नाइट आधारित तापीय विद्युत संयंत्र से 100 किलोमीटर की परिधि के भीतर सड़क संनिर्माण परियोजनाओं या ऐश आधारित उत्पादों के संनिर्माण के लिए या कृषि संबंधित क्रियाकलापों में मृदा अनुकूलक के रूप में उपयोग के लिए ऐश के परिवहन की लागत ऐसे कोयला या लिग्नाइट आधारित तापीय विद्युत संयंत्र द्वारा वहन की जाएगी और 100 किलोमीटर की परिधि से परे और 300 किलोमीटर की परिधि के भीतर ऐसे परिवहन की लागत को उपयोक्ता और कोयला या लिग्नाइट आधारित तापीय विद्युत संयंत्र के बीच समान रूप से अंश भाजित की जाएगी।
- (11) कोयला या लिग्नाइट आधारित तापीय विद्युत संयंत्र अपने परिसरों के भीतर या अपने परिसरों के आस-पास ऐश आधारित उत्पाद संनिर्माण सुविधाओं का संबंधन करेंगे, उन्हें अपनाएंगे और उनकी स्थापना करेंगे (वित्तीय और अन्य सहबद्ध अवसंरचना)।
- (12) नगरों के आस-पास बने कोयला या लिग्नाइट आधारित तापीय विद्युत संयंत्र ऐश आधारित उत्पाद विनिर्माण इकाइयों का संबंधन करेंगे और उनकी स्थापना का समर्थन और उसमें सहायता करेंगे ताकि ईंटों और अन्य भवन संनिर्माण सामग्रियों की अपेक्षाओं की पूर्ति की जा सके और साथ ही परिवहन में कमी की जा सके।
- (13) यह सुनिश्चित करने के लिए कि किसी सड़क संनिर्माण का संविदाकार सड़क निर्माण में ऐश का उपयोग करता है, सड़क संनिर्माण के लिए संबद्ध प्राधिकारी संविदाकार को किए जाने वाले संदाय को तापीय विद्युत संयंत्र से ऐश के प्रदाय के प्रमाणीकरण के साथ जोड़ेगा।
- (14) कोयला या लिग्नाइट आधारित तापीय विद्युत संयंत्र, 300 किलोमीटर की परिधि के भीतर प्रधानमंत्री ग्रामीण सड़क योजना के अधीन सड़क संनिर्माण परियोजनाओं और भवनों, सड़कों, बांधों और तटबंधों के संनिर्माण को अंतर्विलित करने वाले सरकार के आस्ति सृजन कार्यक्रमों के स्थल तक ऐश के परिवहन की संपूर्ण लागत का वहन करेगा।”।

3. उक्त अधिसूचना के पैरा (2) के उप-पैरा (2क) को उप-पैरा (15) के रूप में पड़ा जाए और उक्त उप-पैरा के अंत में निम्नलिखित उप-पैरा जोड़ा जाएगा, अर्थात् :-

“और तटीय जिलों में अवस्थित कोयला या लिग्नाइट आधारित तापीय विद्युत संयंत्र तटरेखा सुरक्षा उपायों का समर्थन करेंगे, उनके संनिर्माण में सहायता करेंगे या उसमें प्रत्यक्ष रूप से सम्मिलित होंगे।”

4. उक्त अधिसूचना के पैरा 3 में उप-पैरा (7) के पश्चात् निम्नलिखित अंतःस्थापित किया जाएगा, अर्थात् :-

- (8) विभिन्न संनिर्माण परियोजनाओं का अनुमोदन करने वाले सभी राज्य प्राधिकारियों का यह उत्तरदायित्व होगा कि वे यह सुनिश्चित करें कि फ्लाई ऐश का उपयोग करने या फ्लाई ऐश आधारित उत्पादों के लिए तापीय विद्युत संयंत्रों और संनिर्माण अभिकरण या संविदाकारों के बीच परस्पर समझ ज्ञापन या कोई अन्य ठहराव किया जाता है।
- (9) राज्य प्राधिकारी, दस लाख या अधिक की जनसंख्या वाले नगरों की भवन निर्माण संबंधी उप विधियों का संशोधन करेंगे ताकि भार वहन करने वाली संरचनाओं हेतु तकनीकी अपेक्षाओं के अनुसार आवश्यक विनिर्देशों को ध्यान में रखते हुए ऐश आधारित ईंटों के आज्ञापक उपयोग को सुनिश्चित किया जा सके।

(10) संबद्ध प्राधिकारी सभी सरकारी स्कीमों या कार्यक्रमों में, उदाहरणार्थ महात्मा गांधी राष्ट्रीय ग्रामीण रोजगार गारंटी अधिनियम, 2005 (मनरेगा), स्वच्छ भारत अभियान, शहरी और ग्रामीण आवासन स्कीम, जहां संनिर्मित क्षेत्र एक हजार वर्ग फुट से अधिक है और अवसंरचना संबंधी संनिर्माण में, जिसके अंतर्गत अभिहित औद्योगिक संपदाओं या पार्कों या विशेष आर्थिक जोनों में भवन निर्माण भी है, ऐश आधारित ईंटों या उत्पादों के आज्ञापक उपयोग को सुनिश्चित करेंगे।

(11) कृषि मंत्रालय कृषि क्रियाकलापों में ऐश के मृदा अनुकूलक के रूप में उपयोग का संवर्धन करने पर विचार कर सकेगा।

5. सभी संबद्ध प्राधिकारियों द्वारा उपरोक्त उपबंधों का अनुपालन करने की समयावधि 31 दिसंबर, 2017 है। कोयला या लिग्नाइट आधारित तापीय विद्युत संयंत्र, उनके द्वारा उत्पादित फ्लाई ऐश के 100 प्रतिशत उपयोग के अतिरिक्त उपरोक्त उपबंधों का अनुपालन 31 दिसंबर, 2017 से पूर्व करेंगे।

[फा. सं. 9-8/2005-एचएसएमडी]

विश्वनाथ सिन्हा, संयुक्त सचिव

टिप्पणी:- मूल अधिसूचना भारत के राजपत्र, असाधारण, भाग II, खंड 3, उप-खंड (ii) में अधिसूचना सं. का.आ. 763(अ), तारीख 14 सितंबर, 1999 द्वारा प्रकाशित की गई थी और इसमें पश्चातवर्ती संशोधन अधिसूचना सं. का.आ. 979(अ), तारीख 27 अगस्त, 2003 और का.आ. 2804(अ), तारीख 3 नवंबर, 2009 द्वारा किए गए थे।

MINISTRY OF ENVIRONMENT, FORESTS AND CLIMATE CHANGE

NOTIFICATION

New Delhi, the 25th January, 2016

S.O. 254(E).—Whereas a draft of certain amendments to the Government of India in the Ministry of Environment, Forests and Climate Change number S.O. 763(E), dated the 14th September, 1999 (hereinafter referred to as the said notification) which the Central Government proposes to make under sub-section (1) and clause (v) of sub-section (2) of section 3 of the Environment (Protection) Act, 1986 (29 of 1986) read with clause (d) of sub-rule (3) of rule 5 of the Environment (Protection) Rules, 1986, was published in the Gazette of India, Extraordinary, Part II, section 3, Sub-section (ii), vide S.O. 1396(E), dated the 25th May, 2015 inviting objections and suggestions from all persons likely to be affected thereby before the expiry of sixty days from the date on which copies of the Gazette containing the said draft amendments were made available to the public.

And, whereas copies of the said Gazette were made available to the public on 25th May, 2015;

And, whereas all the objections and suggestions received from all persons likely to be affected thereby in respect of the said draft notification have been duly considered by the Central Government;

Now, therefore, in exercise of the powers conferred by sub-section (1) and clause (v) of sub-section (2) of section 3 of the Environment (Protection) Act, 1986 (29 of 1986) read with clause (d) of sub-rule (3) of rule 5 of the Environment (Protection) Rules, 1986, the Central Government hereby makes the following amendments to the said notification, namely:—

1. In the said notification, in paragraph 1,-

- (a) in sub-paragraph 1(A), for the words “hundred kilometers”, the words “three hundred kilometers” shall be substituted;
- (b) in sub-paragraph (3), for the figures and letters “100 km”, the words “three hundred kilometers” shall be substituted;
- (c) in sub-paragraph (5), for the words “hundred Kilometers”, the words “three hundred Kilometers” shall be substituted;
- (d) in sub-paragraph (7), for the words “hundred Kilometers”, the words “three hundred Kilometers” shall be substituted.

2. In the said notification, in paragraph 2:-

(a) after sub-paragraph (1), the following proviso shall be inserted, namely:-

“provided further that the restriction to provide 20 % of dry ESP fly ash free of cost shall not apply to those thermal power plants which are able to utilise 100 % fly ash in the prescribed manner.”

(b) after sub-paragraph (7), the following sub-paragraphs shall be inserted, namely:-

- (8) Every coal or lignite based thermal power plants (including captive and or co-generating stations) shall, within three months from the date of notification, upload on their website the details of stock of each type of ash available with them and thereafter shall update the stock position at least once a Month.
- (9) Every coal or lignite based thermal power plants shall install dedicated dry ash silos having separate access roads so as to ease the delivery of fly ash.
- (10) The cost of transportation of ash for road construction projects or for manufacturing of ash based products or use as soil conditioner in agriculture activity within a radius of hundred kilometers from a coal or lignite based thermal power plant shall be borne by such coal or lignite based thermal power plant and the cost of transportation beyond the radius of hundred kilometers and up to three hundred kilometers shall be shared equally between the user and the coal or lignite based thermal power plant.
- (11) The coal or lignite based thermal power plants shall promote, adopt and set up (financial and other associated infrastructure) the ash based product manufacturing facilities within their premises or in the vicinity of their premises so as to reduce the transportation of ash.
- (12) The coal or lignite based thermal power plants in the vicinity of the cities shall promote, support and assist in setting up of ash based product manufacturing units so as to meet the requirements of bricks and other building construction materials and also to reduce the transportation.
- (13) To ensure that the contractor of road construction utilizes the ash in the road, the Authority concerned for road construction shall link the payment of contractor with the certification of ash supply from the thermal power plants.
- (14) The coal or lignite based thermal power plants shall within a radius of three hundred kilometers bear the entire cost of transportation of ash to the site of road construction projects under Pradhan Mantri Gramin Sadak Yojna and asset creation programmes of the Government involving construction of buildings, road, dams and embankments”.

3. In the said notification, in paragraph 2, sub-paragraph (2A) be read as sub-paragraph (15) and at the end of the said sub-paragraph, the following sub-paragraph shall be added, namely:-

“and the coal or lignite based thermal power plants located in coastal districts shall support, assist or directly engage into construction of shore line protection measures.”

4. In the said notification, in paragraph 3, after sub-paragraph (7), the following shall be inserted, namely:-

- (8) It shall be the responsibility of all State Authorities approving various construction projects to ensure that Memorandum of Understanding or any other arrangement for using fly ash or fly ash based products is made between the thermal power plants and the construction agency or contractors.
- (9) The State Authorities shall amend Building Bye Laws of the cities having population One million or more so as to ensure the mandatory use of ash based bricks keeping in view the specifications necessary as per technical requirements for load bearing structures.
- (10) The concerned Authority shall ensure mandatory use of ash based bricks or products in all Government Scheme or programmes e.g. Mahatma Gandhi National Rural Employment Guarantee Act, 2005 (MNREGA), SWACHH BHARAT ABIYAN, Urban and Rural Housing Scheme, where built up area is more than 1000 square feet and in infrastructure construction including buildings in designated industrial Estates or Parks or Special Economic Zone.

- (11) The Ministry of Agriculture may consider the promotion of ash utilisation in agriculture as soil conditioner.”
5. **The time period to comply with the above provisions by all concerned authorities is 31st December, 2017. The coal or lignite based thermal power plants shall comply with the above provision in addition to 100 % utilization of fly ash generated by them before 31st December, 2017.**
