To,

As per attached list.

विषय /SUB.:- Extension of validity date of Type Test Certificate and amendment to CEA's "Guidelines for the Validity Period of Type Test(s) conducted on Major Electrical Equipment in Power Transmission System" - reg.

As you are aware that CEA had prepared "Guidelines for the Validity Period of Type Test(s) conducted on Major Electrical Equipment in Power Transmission System", in consultation with various utilities, manufacturers, testing agencies, IEEMA and other stakeholders. The guidelines were circulated to all Stakeholders, vide CEA's letter No. CEA-PS-14-80/1/2019-PSETD Division/195-271 dated 11.05.2020 and the same is also available in CEA's website at the link:

https://cea.nic.in/wp-content/uploads/psetd/2020/08/Approved_Type%20test%20validity%20guidelines.pdf

2. Due to COVID pandemic, one year extension on validity period for type test of equipment listed in abovementioned document was provided in October 2020 which is valid upto 30th September 2021. At that time it was anticipated that this pandemic would be over and manufacturing & testing process would become normal again. However, pandemic resurfaced with even more intensity which forced closure of manufacturing units and testing laboratories. Manufacturers have requested for further extension to validity period as they could not get opportunity to carry out type test.

3. Complete testing facilities for GIS and Hybrid switchgear are not available in India and manufacturers need to send their equipment abroad for testing which is not only time consuming but also costly affair. Since GIS manufacturing is not that old in India and most of the manufacturers follow the design and process of their parent company/collaborator, manufacturers have requested for accepting type test report conducted on product

File No.CEA-PS-14-80/1/2019-PSETD Division-Part(2)

manufactured by parent company. Further, many of the utilities already accept these test reports.

4. Keeping in view the difficulties being faced by Indian manufactures, it has been decided that:

(a) The Type test reports, which could not be re-validated due to COVID pandemic since 23rd March 2020, shall be treated as valid up to 30th September 2022.

(b) Para 2(g) of CEA's "Guidelines for the Validity Period of Type Test(s) conducted on Major Electrical Equipment in Power Transmission System" shall be read as follows:

"The equipment shall be supplied from the same manufacturing works, where from the sample unit was manufactured and successfully type tested as per relevant standard (IS/IEC). However, in case of GIS and Hybrid switchgear, type test reports of parent company/collaborator may be accepted provided same design and process by which parent company/collaborator has manufactured the equipment, has been followed by the Indian manufacturer."

This issues with the approval of Member (PS), CEA.

Validity unknown
