विषय/Sub: Request for Clarification on the data for rural and urban HHs electrification submitted by BSET (April2020-march, 2021) -Reg.

Ref: BEST undertaking email dt. 21.10.2021.

महोदय/ Sir,

Reference is invited to the email under reference on the above cited subject attaching therewith the data/information on rural and urban HHs electrification with respect to your discom for the FY 2020-21 (April, 2020-March, 2021. (copy enclosed). The submitted data has been examined and observations & suggestions thereon are as under:

1. As per the Format circulated by CEA, the Column 'j' of the format (i.e. "Total domestic consumers up to the end of the month of the year (Nos.) #"), is the closing balance for the particular month, and the same has to be the opening balance for the next month in the column 'd' of the format (i.e. "Total domestic connections Existing at the end of the previous Month i.e. beginning of the current month (Nos.) #").
2. However, in the data furnished by the BEST undertaking for the month of April, 2020 for the column 'j' (i.e. "Total domestic consumers up to the end of the month of the year (Nos.) #") is 751,487, and as per the above principle of the format, this figure should have been the opening figure of column 'd' (i.e. "Total domestic connections Existing at the end of the previous Month i.e. beginning of the current month (Nos.) #") for May, 2020, and so on for other months till the end of the FY up to March, 2021.

But, in your report, the closing balance of the particular month is not reflected as opening balance for the next month, and the reason for this discrepancy is not brought out to CEA.

Continued with P/2.

It is therefore requested to furnish the clarification on the above observation, or furnish the revised /reconciled data for rural and urban HHs electrification as per the procedure given at para 2 above, at the earliest through email at : [ce.pfam.cea@gov.in](mailto:ce.pfam.cea@gov.in) for further compilation and analysis at our end.

Encl: As above

Yours faithfully
