

Electrical Safety Awareness Programme by RIO (S)

On the eve of National Electrical Safety Awareness Week 2024, RIO (South) conducted an Electrical Safety Awareness Workshop with CPCL (Chennai Petroleum Corporation Limited) and other petrochemical industries in Chennai on 2nd July, 2024.

Theme of the safety awareness program "Embrace Electrical Safety, Safeguard Lives" calls upon us to prioritize safety as an integral part of our organizational culture. It challenges us to adopt proactive measures that not only comply with regulatory standards but go beyond to foster a safety culture and a workplace where safety is ingrained in every task and decision.
